**S90 Swiss Finish** modular cooking

# S90 Swiss Finish

**A single block able to fulfill the highest expectations of the most demanding chefs.**

Its elegance and reliability will satisfy the chef's highest requirements from 5-star hotels to à la carte and fine dining restaurants.

The S90 Swiss Finish has been designed to offer an extensive range of functions in a **compact** space. A **tailor-made solution** which incorporates the variety of S90 functions (i.e. gas and electric, single zone and large surface induction, ecotop and ecoflam options) with top of the line characteristics.

Discover and appreciate the **ease of use** when creating exquisite recipes on the compact block and seamless worktop.

Operation on **both sides** and **passthrough** compartments allow the chef to work on an island configuration even in a smaller kitchen.

**The rest is up to you...**select the S90 Swiss Finish functions of your choice and add a touch of personality to your kitchen.

A flat and smooth worktop, with **no joins** and **visible screws**, facilitates the cooking and cleaning operations.

Cooking operations are made easier, faster and safer thanks to the smooth **rounded corners** of the worktop.

The S90 Swiss Finish has been engineered for **long lasting** and heavy duty use thanks to the sturdy 3mm worktop placed on a 4mm reinforced top and an internal structure in 304 AISI stainless steel.

Speed up your cleaning operations thanks to the **hygienic compartments** with internal rounded corners and doors which open up to 180°.
