User Guide

air-o-convect

The simple and clear control panel

	Automatic humidifier	11 settings from braising to par-steaming
	Digital temperature display	The green digits indicate the actual temperature, the small red digits show the set temperatures. Both are displayed at once for the operator's comfort
	Time/food probe display	The large green digits indicate the real time while the small red digits communicate the set time. Both are displayed at once for operator's comfort
	Hold	Pulse ventilation recommended for baking, slow roasting and keeping food warm
	HACCP	HACCP monitoring via a local printer (HACCP BASIC) or an integrated PC network (HACCP advanced)
	Cleaning	Choose between 4 automatic cleaning cycles (from soft to extra-strong) or the low impact of the semi-automatic cycle
	Exhaust valve control	Keep it open for extra-crispy results
	Central dial	Central dial for setting the humidity, cooking chamber temperature, time and food probe temperature
	Manual water injection	Increases the moisture instantly according to your judgement
	Rapid cooling	To pass from one type of cooking to another in a blink of the eye. This function is also automatically activated when the temperature becomes lower than the actual one
