

# Washer extractors for In-Door Cleaning

W465H

W4240H

W455H  
Base with removable lint collector

## Features and benefits

- Compass Control® – easy to use microprocessor
- Quick Start buttons – set-up to the two most used programs
- Special programs for washing cleaning material (mop heads, cloths, work wear etc.)
- Selectable extraction time – for precise residual moisture content of different fabrics (polyester, microfibre, cotton etc.)
- Prepared for liquid detergent supply
- Electrical heated machines have special elements – less sensible for lint
- The inner drum has lid(s) for easier cleaning and maintenance
- Electrical drain valve – for fast drainage after wash

Base

## Options and Accessories

- Clarus Control® – fully programmable microprocessor
- Steam heating – (not available on W455H)
- Bases – for a convenient work height
- Stainless steel lint collectors – easier maintenance, prevents lint to clog-up in the drain piping

Lint collector
