

# DUBLO

## AUTOMATIC FOLDER

### Model:

- Upgrade of the FLIP-FLOP folder (Same characteristics and consumption data).

### Production:

- Type of folding:
  - Top conveyor "French fold" (1/3 + 1/3).
  - Bottom conveyor "Traditional" (1/2 + 1/2).
- Category of items:
  - Top conveyor Small flat (570 x 1000 mm maxi.).
  - Bottom conveyor Small flat (580 x 700 mm maxi.).

### Operation:

- DUBLO, can be used in two different working modes:
  - Manual: using pre-selected programs on the main control panel.
  - Automatic: using 5 programs based on detection of items' dimensions. In this case the machine will automatically lead items on the top or on the bottom conveyor.
- Each top and bottom conveyors have their own stacker and delivery conveyor of stacked items.

### Features:

- Vacuum folding table.
- Double automatic stacker.
- Automatic "French" or "traditional" folding of small flat items.
- Folding and stacking systems by mobile flaps.
- Two conveyors for stacks with buzzer alarm to empty them.
- Stacks done according to pre-defined programs.
- Automatic selection of folding program.
