

# TRANS-FOLDER 1

## AUTOMATIC CROSS FOLDER

### Model 1:

- 1 lane for items' dimensions of 1000 mm.
- Automatic cross (transversal) folder without auto centring.

### Production:

- Working width: 1034 mm
- Category of linen: Medium-size flat items
- TRANS-FOLDER should be added to length fold folders (COMPACT-FOLDER and MAXI-FOLDER), to get a universal finishing line.

### Operation:

- The cross fold is done by one blade between reverse rotating rollers (maximum width of cross fold 420 mm).
- Separate stacker equipped with pneumatic clamps and conveyer belts on the stack table (conveyer length: 850 mm; maximum height of stacks: 180 mm)

### Features:

- The robust steel chassis is made of bended 3 and 4 mm thick metal sheets. White colour RAL 9010.
- Piece counter on each cross fold lane.
- Easy to use control system managing up to 20 folding programs.
- Buzzer and flashing light alarms in case of jam.
- Automatic torn/dirty linen rejection directly after the length fold.
- Belts and antistatic bar for smooth operation.
- Mounted on wheels.
